### **Detour scheduled Thursday night on I-10 at State Road 23 (Exit 350)**

***Jacksonville, FL*** – Interstate 10 West from Chaffee Road to U.S. 301 is scheduled to close Thursday from 9:00 p.m. to 5:00 a.m. Friday.

The traffic detour is Chaffee Road, Beaver Street (U.S. 90), U.S. 301 to I-10 westbound.

The closure, weather permitting, is to install overhead bridge beams for the First Coast Expressway project.

## **TRAFFIC ADVISORY**

### **Southbound I-75 ramp and lane closures at U.S. 441 (Exit 399) continue** *Northbound on-ramp and outside lane continuously closed for at least another week*

**Gainesville** – The southbound on-ramp to Interstate 75 from U.S. 441 North at Exit 399 and southbound outside lane will remain completely closed at least one more week while pavement reconstruction continues. The reopening of the ramp and outside lane is delayed due to weather and unforeseen circumstances discovered during excavation.

Traffic on I-75 South is reduced to two-lanes from U.S. 441 to the old CSX railroad bridge.

The new I-75 southbound on-ramp from U.S. 441 South remains open.

Following the completion of the southbound work, the I-75 northbound outside lane and off-ramp to U.S. 441 will close for at least 12 days with traffic reduced to two-lanes in that area of the interstate.

Traffic will detour five miles north to the County Road 236 (Exit 404) interchange to access I-75 during the closures.

The ramps/lanes can be reopened early if work is completed ahead of schedule or may remain closed longer depending on unforeseen circumstances including bad weather.

We appreciate your patience during this construction to maintain Northeast Florida's interstate infrastructure. Of the 50 million people who travel by car into Florida, 40 million travel through District Two.
